

Global Warming

Liberals whine endlessly about global warming. But they never mention that while scientists forecast global warming catastrophes for Europe, Japan and China—our major economic competitors — North America is projected to emerge relatively unscathed. Only George W. Bush has had the political courage to embrace global warming as a useful weapon in the trade wars that will define our future economic well-being, and that of our children.

THE USA PATRIOT PLEDGE

- I volunteer to live with the consequences of global warming if it means increased profit for American industry.
- I volunteer to help generate *more* greenhouse gases if it results in a competitive edge for my country.

Family Values

The bedrock of everything that is great about our great country is Christian family values. Liberals cannot accept this fundamental truth, as they are dependent on the votes of homosexuals, adulterers, socialists, and the like. We invite you to let Washington know your commitment to the values we share.

THE USA PATRIOT PLEDGE

- I volunteer to never divorce, and to stay with my spouse until death, no matter how incompatible we may be.
- I volunteer to remain celibate unless married.
- I volunteer to not have an abortion, even if I am raped, the victim of sexual abuse or incest, or if tests show my unborn child to have serious congenital disease or deformity. *[Please skip this item if you are not a woman.]*
- I volunteer to not use drugs developed from stem cell research, and to not allow my dependents to do so, even if they are suffering from a life-threatening illness for which there is no alternative cure.

The Economy

In economic matters, President Bush has shown his leadership by taking necessary — but sometimes unpopular — steps. It would have been *easy* to invest the budget surplus left over by Clinton in Social Security or national health care. President George W. Bush chose the more difficult path of running a “*profit-smart deficit.*” Tax cuts favoring the poor would have been *easy*; President Bush took the hard road of tax cuts favoring the elite, because it is the elite who drive our economy. On economic issues more than any others, Washington needs to hear that **USA patriots stand behind President Bush!**

THE USA PATRIOT PLEDGE

- I support tax cuts favoring the elite, and I volunteer to pay more than my share of taxes to allow the elite to invest their money in our country’s economy. *[Please skip this item if your annual income exceeds \$400,000.]*
- I commit my children to pay for the wars America is fighting to guarantee their security.

Child’s Name: _____ Social Security Number: _____

- I volunteer to forfeit my social security checks when I retire in order to pay down the debt America is accruing.

Name: _____ Social Security Number: _____

On behalf of **President George W. Bush** and **Attorney General John Ashcroft**, we thank you for your time, your patriotism, and your commitment to a great country and a great president.
